SUMMARY

Committed senior computer engineering student with practical experience in building efficient web applications and solving complex problems using modern frameworks. Skilled in *problem-solving*, *adapting quickly* to new technologies, and *collaborating* in team environments. Passionate about transforming ideas into high-quality, functional projects and delivering results through innovative solutions. Eager to contribute my skills to a dynamic development team while actively pursuing opportunities for professional development.

EXPERIENCE

Rement Information Technologies - *Software Development Intern* July 2024 – September 2024

- Assigned to develop web applications for a national research institution, National Nanotechnology Research Center (UNAM) at Bilkent University.
- Collaborated with a team to enhance the usability and design of Single Page Applications (SPA) using Vue.js.
- Developed and integrated user-friendly interfaces, gaining hands-on experience with Azure DevOps and working on C# and API back-end services.
- Contributed to the project's successful completion, resulting in a smooth interface and improved user experience, advancing personal understanding of full-stack development.

Freelance - *Web Developer* 2021 – Present

- Worked with various businesses to design and deploy responsive websites and applications.
- Led projects in website development, focusing on Vue.js, Nuxt.js, and Next.js to create high-performance applications.
- Integrated cloud-based solutions, using AWS, Supabase, Vercel to ensure scalability and security.
- Delivered multiple successful projects that increased client satisfaction, improved application performance, and led to ongoing client relationships.

SKILLS AND EXPERTISE

- Programming Languages:** HTML5, CSS3, JavaScript (ES6+), Python, C#
- Front-End Frameworks/Libraries:** Vue.js, Nuxt.js, Next.js, TailwindCSS, Bootstrap
- Back-End:** Python (Django)
- Cloud Services:** AWS, Supabase, Vercel
- Version Control & Tools:** Git, Azure DevOps

EDUCATION AND LANGUAGE SKILLS

English: Intermediate (B2 Level)

Arabic: Entry level speaking (Born and raised in Saudi Arabia)

Turkish: Native

İzmir Bakırçay University | **Computer Engineering**
